

2012-2013 Draft School Board Goals

Goal 1: The Glenwood School District will continue to develop all policy and procedures pertaining to technology by making sure they meet the needs of as many stakeholders as possible. This development will include student and staff safety, meeting the access needs of all students, and the exploration of social media and its use in public education.

Goal 2: The Glenwood School District will facilitate a learning environment and opportunities where all students meet learning goals by providing access to a diverse array of advanced coursework, online classes, enriched learning opportunities and necessary support systems during the 2012-13 school year.

Goal 3: The Glenwood School District will undertake further exploration of ways by which the district can enhance learning opportunities in select focus areas, such as natural resources and CTE, by offering trial courses engaging neighboring school districts and creating strategic plan over the next two years.
